**Subject:** Microsoft Settlement

Unlike Americans for Technology Leadership I believe that this settlement is not tough not fair and not reasonable compromise and is not in the best interest of everyone - the technology industry the economy and especially consumers. Unlike some industry leaders some politicians some economists and some newspaper editorials I do not endorse this settlement. I believe that Microsoft using its monopoly power exercising FUD illegal dumping intimidating and other mean methods to crush competition hurt innovation the IT industry the economy and especially consumers. I believe that support of such kind of monopoly as Microsoft is immoral. This is my strong opinion.
